
Elections Bishops Pope Siricius 384 398 Leo

the dark side of the papacy - 23rd street - that a pope dared to infringe their democratic rights as the clergy and people of rome, forced him to burn it. it was an interesting moment. had boniface been allowed to get away with it, there might not have been any more papal elections. certainly, after 1870, it would have been taken for granted that a pope appoint his successor.
